

Mounting Tape

- Sticky on both sides of tape.
- Wall-mount pictures, decorations.
- Use on most types of Walls... ceramic tile and Wood-surfaces that are clean, dry and smooth.

HEAVY DUTY

Instructions: Follow these easy-to mount steps. Use Four inches /101,6mm of tape for each half-pound/227g of weight to be mounted. Use only for mounting objects up to 2 pounds/900g maximum.

1). Make light pencil lines on wall at key points around object to be mounted.

2). Cut lengths needed from roll. Do not remove protective liner as yet.

3). Press tape into position on back of object to be mounted. Press firmly on liner for good adhesive contact.

4). Remove liner and press firmly into place on wall.

Note: If you wish to remove mounted object, insert knife behind mounted object and cut tape between adhesive surfaces. Remove remaining material from wall with thumbnail. Be careful not to mar wall's surface. Use same procedure when removing remaining material from detached object.

Not recommended for use on wallpaper, delicate surfaces or walls painted with flat paint.
